

Minutes July 8, 1996

Chris Blair, Conrad Ohman, Richard Nault, Howard Burns

The chair opened the meeting at 7:04 p.m.

TOWN OF MONTEREY: The road is being moved, Don Amstead was on vacation so there was no one to present the project. As long as there is a settling basin the CC has no problem.

ZANTAY: Mike Kulig represented the applicant. They want to remove gravel in the buffer zone of an isolated pond. Will be making a substantial cut. They will need to file a Notice of Intent. The Determination was P3. The members viewed the pictures of the project. There had been gravel removal illegally from the property and there is a STOP WORK order on the property at this time. The gravel will be sold. The members questioned where the drainage is going from the road and how much is going into the isolated pond and lake. It is a large scale project. There will be a new road and there is an existing road. The members voted the project P3 which would require the filing of a Notice of Intent before any work may be done on the project. They will need to file an earth removal permit. Howard Burns will be in charge of the project as Richard Nault is an abutter.

MEAKEM: The Conservation Commission received a response to the letter they sent regarding the erosion into Stevens Lake. The members inspected after the close of the meeting.

Meeting adjourned at 8:20 p.m.

A handwritten signature in cursive script, reading "Maryellen Brown". The signature is written in dark ink and is positioned below the text of the meeting minutes.
